REFRIGERATOR MODELS: PF36BNDFXX*

*Where XX indicates the color of the glass

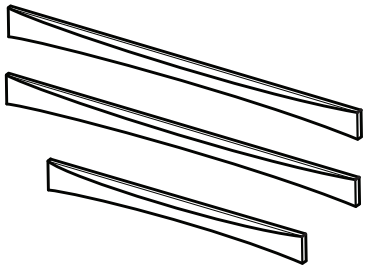
dacor The Life of the Kitchen®	Preference® Handle Kit, PN AFP36H3	INSTALLATION INSTRUCTIONS

Tools Required

- 3/32” Allen wrench (not supplied)

Parts Included

Preference Style Handles (2 large, 1 small)



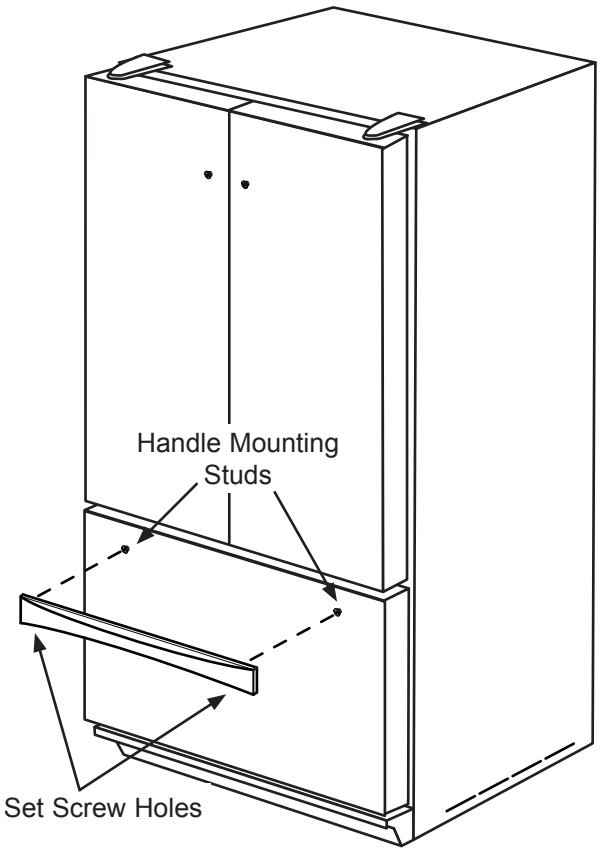
Bottom (Freezer) Handle Installation

STEP 1: Find the smallest of the three handles in the kit box.

STEP 2: Mount the handle to the bottom drawer by sliding the holes on the back over the handle mounting studs on the refrigerator. Make sure the set screw holes on the handle are facing toward the bottom. You may need to loosen the set screws using a 3/32” Allen wrench to allow the handle to slide into place.

STEP 3: Carefully tighten the set screws into place using the 3/32” Allen wrench. Be careful not to scratch the finish.

STEP 4: Check to make sure the handle is firmly attached.

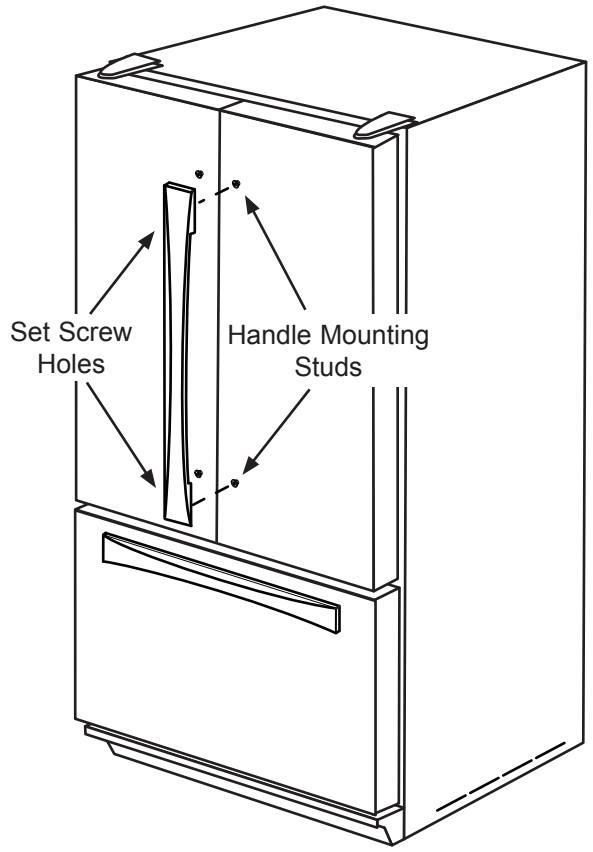


Top Right Handle Installation

STEP 5: Mount the handle to the right door by sliding the holes on the back over the handle mounting studs on the right door. Make sure the set screw holes face toward the center of the refrigerator. Loosen the set screws if necessary to allow the handle to slide into place.

STEP 6: Carefully tighten the set screws into place using the 3/32” Allen wrench. Be careful not to scratch the finish.

STEP 7: Check to make sure the handle is firmly attached.



Top Left Handle Installation

STEP 8: Mount the remaining handle to the left door with set screw holes toward the center of the refrigerator. Loosen the set screws if necessary to allow the handle to slide into place.

STEP 9: Open the left door while holding the handle in place to prevent damage to the other handle during step 10.

STEP 10: Carefully tighten the set screws into place using the 3/32” Allen wrench. Be careful not to scratch the finish.

STEP 11: Check to make sure the handle is firmly attached.
